**DECLARATION WITH  
STATEMENT OF ERROR IN  
SUPPORT OF REISSUE APPLICATION**

Sir:

Applicants further declare the following:

The error upon which Applicants are relying to support  
the Reissue Application is that of claiming less than they had

the right to claim in the above identified Patent 6,032,128 ("the '128 patent").

Applicants failed to appreciate the full scope of the invention. For example, Applicants now believe that the step of "determining a second identification code" and matching product identification codes as a condition to generation of a wrong-item-removed control signal in Independent claim 1 is unnecessarily limiting. Applicants now believe that they are entitled to additional claims which do not reference second identification codes and matching of product identification codes. Applicants also believe that they are entitled to additional claims of greater scope.

All errors which are being corrected in the present Reissue Application up to the time of filing of this Declaration arose without any deceptive intention on the part of the Applicants.

This Reissue Application is being filed within two years of issuance of the '128 patent as required by 35 U.S.C. 251.
